

Maritime Studios 360° LED KIT

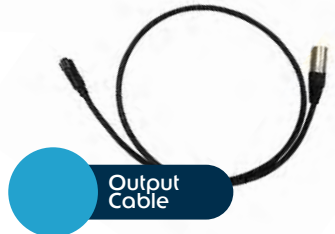

KIT CONTENTS

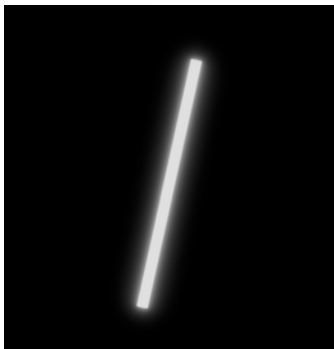

Screwball Connector

Output Cable

Output Cable

Versatile Illumination:

Experience vibrant, full-spectrum lighting with 360° visibility, perfect for enhancing any space, from stage decor to commercial displays.

Optional Length:

Optionally select between .5M, 1M, and 2M lengths.

Control Modes:

Send pixel based content using ArtNet or sACN protocols via CAT5 cable.

Custom Geometry:

Create standing or hanging 3D geometry with the fixtures using the screwball connector.

Specs.	
Pixel per Strip	24 Pixels x 40 leds
Strip Dimensions	1000mm x 40mm
IC Type	UCS1903
Power	15w/m
LED Input Voltage	DC 24V
Controller Input Voltage	110V~220V
